DEAR SIRS @ SCE+G

Now is not the time to INCREASE just because everybody else is. It is difficult enough, WITH EVERYTHING ELSE. 2 weeks ago I received a letter SAYING "they ARE putting NEW meters." Then I get my bill and it's INCREASED. I HAVE a garage out back, which MAY be "twice A YEAR" I go and turn on the lights AND the bill is INCREASED from \$7. - to 18.63 monthly which is wrong. I try to spend more time at work so, I won't have to heat my house. Then when I come home, I go straight to bed with A lot of blankets. So don't, enough is enough, NO INCREASE AT THIS TIME people ARE suffering already.
